SITUATION SUMMARY

Public Health and Medical (EF-8) Situation Report

Ebola Virus Disease, 2014

Date of report: [October 10, 2014](#)

Operational period: [October 8 - October 10, 2014](#)

CDPH/EMSA

There are currently no suspected or confirmed cases of Ebola in California. A patient in Los Angeles County was diagnosed negative for Ebola Virus Disease (EVD), on October 9th, 2014, and is being monitored for the next 21 days due to possible Ebola incubation. **At present, the weekly situational assessment for the risk of Ebola infection in California is very low.**

The outbreak of Ebola Virus Disease (EVD) in the West African nations of Guinea, Sierra Leone, and Liberia continues to expand but does not pose a significant risk to the United States. As of September 28, the World Health Organization has reported a cumulative total of 8033 suspect, probable, and confirmed cases and 3865 deaths. Based on the current situation in West Africa, the Centers for Disease Control and Prevention (CDC) considers the risk of importation of multiple cases of EVD into the United States to be very low. However, the outbreak is evolving, and this assessment may change.

A patient with confirmed EVD, diagnosed on September 30, 2014, in Dallas, Texas died on October 8th, 2014. This was the first travel-related case detected outside of West Africa's outbreak region.

The CDC, California Department of Public Health (CDPH), and Emergency Medical Services Authority (EMSA) continue to prepare for the potentiality that a traveler returning to California from West Africa may be infected with Ebola virus.

CDPH continues to work with the healthcare community and local health jurisdictions to identify potential suspect cases and avoid spread of the disease. New guidelines and updated guidelines released by CDC are posted on the CDPH Communicable Diseases Emergency Response (CDER) website available at: (<http://cdph.ca.gov/programs/cder/Pages/Ebola.aspx>). Likewise, EMSA has developed guidelines for Emergency Medical Services (EMS) personnel based on the recommendations of CDC. The guidelines have been distributed to Local Emergency Management Services Agency (LEMSA) Administrators, LEMSAs Medical Directors and the Regional Disaster Medical Health Coordination (RDMHC) Programs. Revisions will be made as necessary. The document is posted on EMSA's website at http://www.emsa.ca.gov/ebola_control.

SITUATION SUMMARY

NORTHERN CALIFORNIA FIRES

Happy Camp Complex, Vegetation Fire, Siskiyou County

Happy Camp District, Klamath National Forest

FRA

Per Cal Fire, Cal OES Duty Officers, and ICS-209 as of [10/10/14 at 1701 hours](#):

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Dry weather with above normal temperatures will continue through Monday. A front will move across the area on Tuesday bringing cooler and wetter weather conditions through mid-next week.

San Francisco Weather:

A brief warming trend is expected over the weekend as an upper level ridge builds near the West Coast and offshore flow develops. A significant change in the weather pattern early next week will result in much cooler weather by midweek along with precipitation. A large northwest ocean swell is expected to impact the coast over the weekend.

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

Sacramento Weather:

The forecast area will have above normal temperatures through the weekend into Monday with breezy north to east wind tonight through early Monday. In addition, there will be a significant cool down and a threat of some precipitation for Tuesday into Friday.

Hanford Weather:

Mostly clear skies with above average temperatures will continue into Monday. A cooling trend will begin early next week and continue through the end of the work week. Additionally, rain will possible generally from Fresno County northward on Wednesday.

WEATHER

WEATHER SYNOPSIS BY REGION:

SOUTHERN CALIFORNIA:

Los Angeles Weather:

A warming trend and a decrease in marine layer cloud coverage is expected through Columbus Day as high pressure builds into the Great Basin. Cloudier and cooler weather along with some patchy drizzle is expected for the middle of next week as a trough of low pressure moves into the West Coast. Some warming is expected for the end of the week following the passage of the trough.

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Building high pressure over the southwest will bring warm, dry weather through Monday with above average temperatures for mid-October. On Tuesday, a low pressure trough will deepen along the West Coast for much cooler weather through Thursday along with a deep marine layer and gusty west winds through the mountains and deserts. Some drizzle will be possible on Wednesday near the coast.

Southeast California Weather:

Northwesterly flow will persist across the region through the first half of the week resulting in mostly clear skies and near normal temperatures. A slight cooling trend will take place late in the week as a dry trough moves through the area but temperatures will still remain within a few degrees of normal.

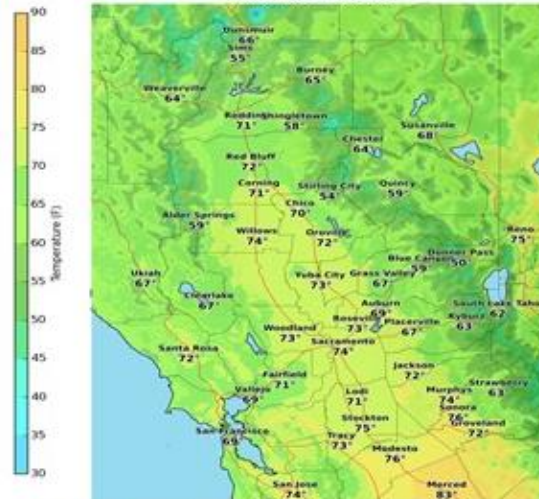

WEATHER

Red Flag Tonight into early Monday
For gusty wind and low humidity

Significantly cooler and wetter Tuesday
Into Wednesday

Highs for Tuesday
Valid: October 14, 2014

Issued Saturday, Oct 11, 2014 at 5:09 am PDT
National Weather Service - Sacramento, CA

Gusty Northerly wind tonight into Monday morning (along the western half of the Sacramento Valley, adjacent Coastal range, and Delta area) combined with low humidity will lead to an increased potential for fires to develop and spread quickly. Pacific storm will impact Interior Northern California Tuesday into Wednesday bringing below normal temperatures and some precipitation. Light snow possible in the mountains above 7000 feet Tuesday night into Wednesday.

OF EMERGENCY SERVICES

FIRE ACTIVITY

Applegate Incident, Vegetation Fire, Placer County

Road Closures

- The status of Eastbound Interstate 80 at Applegate continually changes depending on the movement and behavior of the fire.
- Numerous local hard road closures are in place.

Critical Infrastructure

- Per the California Utilizes Emergency Association (CUEA) reports:
 - There is no present threat to power infrastructure.
 - There is a potential threat to the Placer County Water Treatment Plant.
 - In response to cell phone tower overload issues in Auburn, Colfax, and Foresthill, Verizon Wireless expanded their capacity, solving the overload issues.
- A Kinder Morgan interstate pipeline runs parallel to rail road tracks in the area of the fire. A Kinder Morgan representative responded to scene and advised the State Fire Marshall's Office that the fire was burning away from the area and the line would resume operation. There is no threat to the pipeline.

Cal OES Deployments

- One (1) Cal OES Assistant Fire Chief is assigned.
- One (1) Cal OES Assistant Law Enforcement Chief is assigned to the Placer County Sheriff ICP
- Two (2) PSC Technicians are assigned.

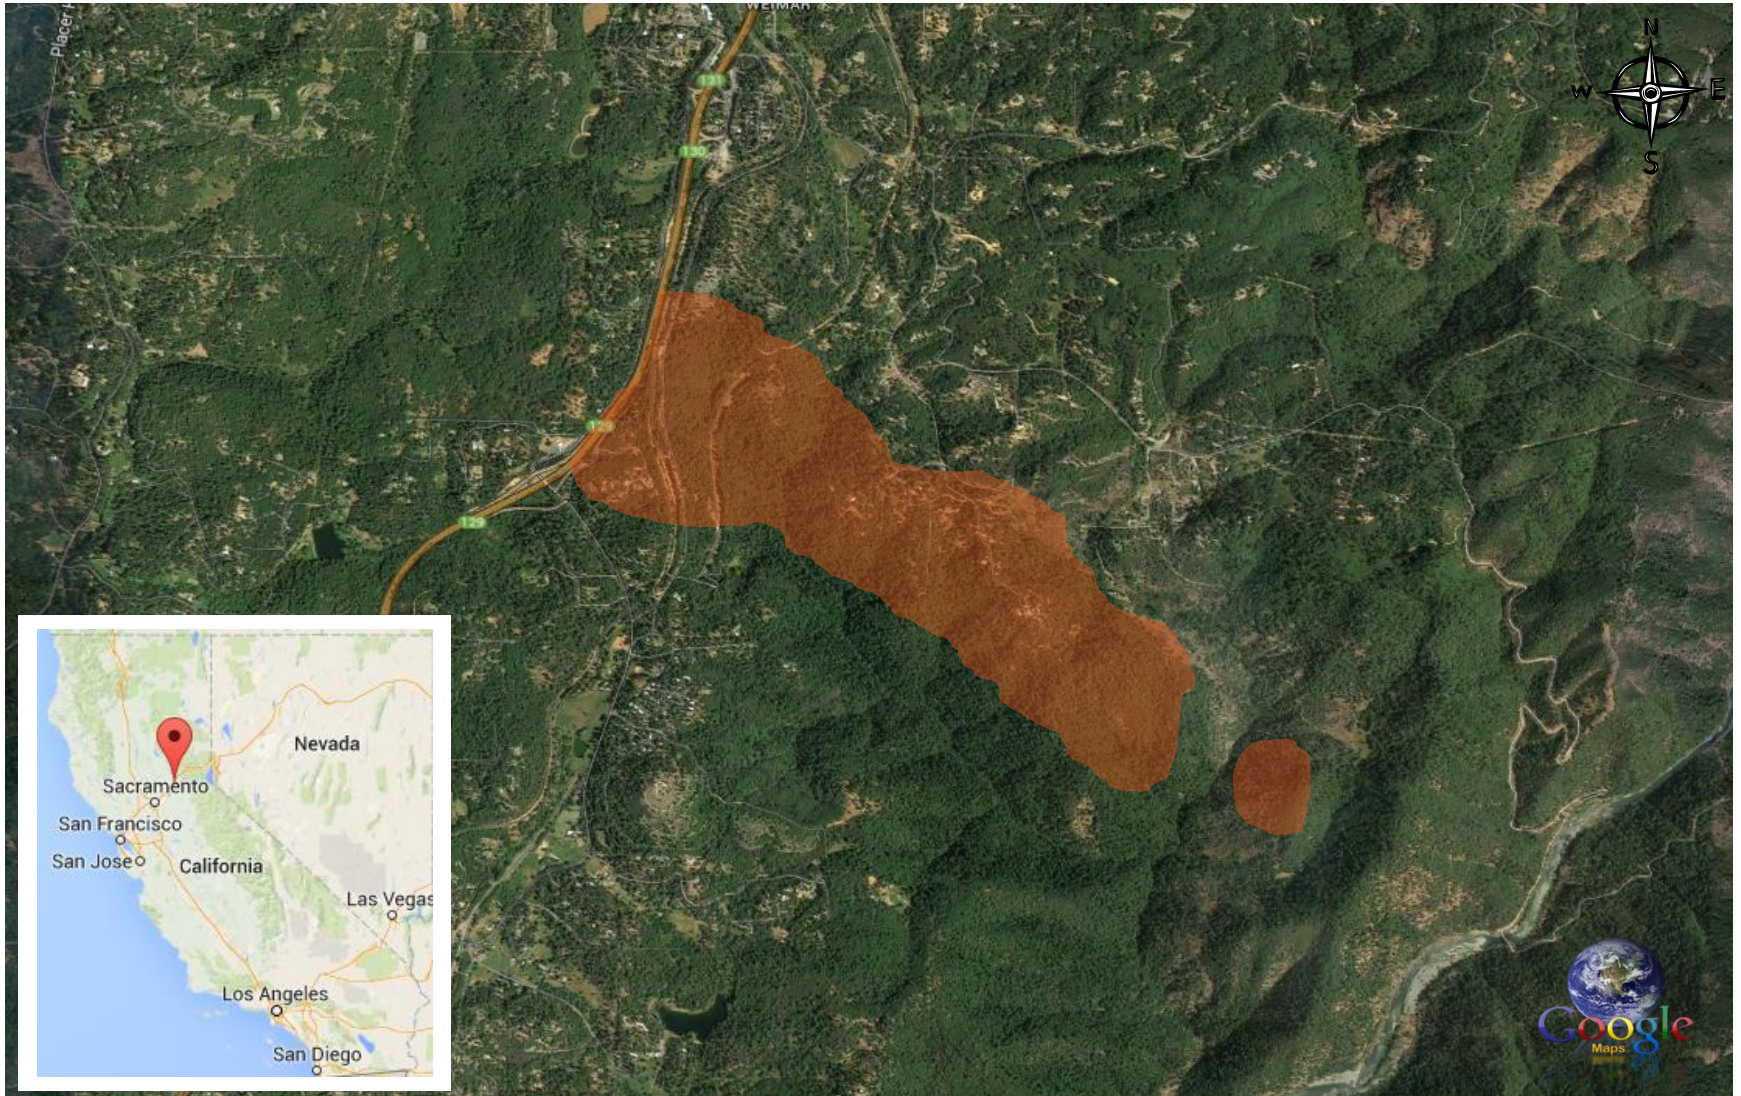

Activations

- Placer County EOC is activated at Level 1.
- The Cal OES Inland Region is activated at Level 1 in support of Placer County.

Mission Tasking

- **2014-INLAND-7081** (Nevada County) - One (1) air monitor supplied by California Air Resources Board. [On Scene](#).

Missions

- 2014-IREOC-6870 (Mariposa County) – For three (3) air monitors supplied by California Air Resources Control Board.

Dog Rock Incident, Vegetation Fire, Mariposa County

RECOVERY ACTIVITIES

Boles Incident Vegetation Fire- City of Weed, Siskiyou County

Recovery Activities

- On 10/01/14, the U.S. Small Business Administration (SBA) approved a disaster declaration making SBA assistance available in the primary County of Siskiyou and the contiguous counties of Del Norte, Humboldt, Modoc, Shasta, and Trinity, making low-interest federal disaster loans available to homeowners, renters, businesses of all sizes and private nonprofit organizations whose property was damaged or destroyed by the Boles Fire. In addition, a Disaster Loan Outreach Center opened Wednesday, 10/01/14, at 1200 hours, located at the College of the Siskiyou's Life Science Building 3, Room LS-1, 800 College Avenue, Weed, California 96094, Mondays – Fridays, 0900 – 1800 hours (Closed 10/13/14 for Columbus Day). Notification letters have been distributed.
- On 10/06/14, the Governor issued Executive Order (EO) B-27-14, which provides CDAA, and debris removal assistance, including the suspension of rules and regulations impacting debris removal.
- Non-food items have transitioned from the Salvation Army to a collaboration of four non-profit agencies that will be involved in the distribution of items such as baby clothes, diapers, clothing, etc.
- The Cal OES VAL continues to coordinate and participate in Long Term Recovery meetings with NGO, Faith Based, and local agencies. On 10/03/14, the Cal OES VAL attended a Long Term Recovery meeting. A mission statement and bi-laws for the long term recovery group were presented, officers were identified, and leads for several committees were formed. Shasta Community Foundation was identified as a fiscal agent for the group and a meeting with agencies that have accepted donations will be held on 10/10/14. Northern California VOAD is supporting the group with long term recovery efforts.
- The College of the Siskiyou's website contains a Fire Resource List of various local agencies offering goods and services. The document can be found at <http://www.siskiyou.edu/humanresources/documents/fireresourcelist.pdf>.
- Food donations are being accepted at 310 Boles Street.
- On 10/02/14, Cal OES Recovery and City staff inspected the City's water system to determine a full Scope of Work, which will be presented, along with the construction contract, to the City Council for approval on 10/09/14.
- Only one family has expressed interest in the temporary sheltering program; the City and family are reviewing the options with no commitment from either side yet.

RECOVERY ACTIVITIES

Boles Incident Vegetation Fire- City of Weed, Siskiyou County

Cal Recycle reports:

Air monitoring activities continue in the work area and surrounding community.

2,842.14 total tons of debris have been removed as of day 8 of operations. (40.92 tons of metal delivered for recycling; 1,066.03 tons of concrete delivered for recycling; and 1,735.19 tons of debris, ash and soil delivered for disposal)

The Numbers as of Day 8

- 122 Sites registered for the removal project (Right-of-Entry, includes library, community center and 2 churches).
- 9 Sites denied entry.
- 53 Sites documented.
- 53 Asbestos surveys completed.
- 30 Sites with asbestos containing material.
- 31 Sites cleared of asbestos containing material.
- 14 Debris removal completed.
- 0 Sites sampled.
- 0 Sample results approved.
- 0 Erosion control completed.
- 0 Approved by City of Weed as ready for a building permit.

Cal OES Deployments

- Four (4) Cal OES Recovery staff are assigned.

RECOVERY ACTIVITIES

Magnitude 6.0 Earthquake, American Canyon, Napa County

Recovery Activities

- Based on a request for additional IA information for the major disaster declaration request, IA teams conducted PDAs 09/08/14 through 09/12/14 in Napa County, the City of Vallejo, and Solano County IA PDA teams conducted additional PDAs 09/17/14 through 09/19/14 finalizing PDAs in Napa County. The Presidential Declaration request letter along with supplement information was forwarded to FEMA for consideration.
- The deadline for potential applicants to submit the Request for Public Assistance to be considered for reimbursement for this event is 10/24/14. Forty-seven (47) RPAs have been received to date. Nineteen (19) kick off meetings have been completed and Four (4) kick-off meetings have been scheduled for this week and next week.
- The Napa Long Term Recovery Committee (LTRC) is in the process of forming its leadership, establishing policies and procedures, and identifying a Mission statement. A follow up meeting is pending.
- Cal OES IA Voluntary Agency Liaison (VAL) continues NGO coordination in Solano County. Due to the absence of local faith based and other organizations that may have resources, Solano VOAD will reach out to expand the engagement of additional nonprofit and faith based partners. Once the organizations are identified, a follow up meeting will be held in hopes of identifying key leaders interested in forming a LTR committee.
- Local Assistance Center (LAC): County and City of Napa: LAC opened on 09/08/14 at 301 1st Street, Napa (corner of 1st Street and Silverado Trail). The LAC is open until further notice.
- A joint area field office located at the McKinley Building, 180 California Drive, Veterans Home of California, Yountville, 94599 opened 10/03/2014.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency Monday through Friday, from 0800-1700 hours.
- The Inland REOC is activated at Level 2 Monday through Friday, from 0800-1700 hours, or as needed.
- The Southern REOC is activated at Level 1 Monday through Friday, from 0800-1700 hours.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is Monday through Friday, from 0800-1700 hours.
- The Governor issued an Executive Order on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought. Specifically, through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- Provided CDAA 2014 Drought Fact Sheet and Frequently Asked Questions to Regions for reference and distribution.
- A conference call is being scheduled, for Cal OES, DWR, SWRCB and Tulare County to discuss drought assistance programs.

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
